

LAFAYETTE HIGH SCHOOL
Screening and COVID-19 Care Plan

Individuals should not be allowed to enter the facility or workout space if they meet any symptom or have a potential exposure.

- Criteria for testing for COVID-19 must include two or more of the following symptoms
____ Fever ____ Chills ____ Fatigue ____ Sore throat
____ Cough ____ Shortness of breath ____ Headache
____ other symptoms: Describe: _____
- If two or more symptoms arise, **visiting your local physician** before going to Hospital for COVID-19 testing is recommended.
- Standard quarantine periods are recommended **in the event of a symptomatic patient (with or without a positive test) or an asymptomatic patient with a positive test for COVID 19**. It is recommended these quarantines follow Centers for Disease Control and Prevention (CDC) and Mississippi State Department of Health (MSDH) guidelines
- These CDC and MSDH guidelines dictate a 14-day quarantine with at least 72 hours symptom-free before returning to activity in the case of a patient with a positive test.
- In the case of a person with a fever, a minimum of 72 hours restriction from activity with at least 24 hours of absence of fever is recommended before return to activity. If the athlete, coach or administrator has symptoms after 72 hours they should be retested for COVID-19.
- All coaches, students, athletics healthcare providers and other personnel **should practice adequate hygiene, including frequent hand washing, frequent cleaning of surfaces and equipment and covering the mouth during coughs and sneezes.**
